Why Study in New Zealand?

01

PATHWAY TO RESIDENCY

Earn 5 points toward New Zealand residency.

02

WORK WHILE YOU STUDY

Unlimited hours/week during study

03

POST-STUDY WORK OPPORTUNITIES

Gain work experience after graduation for up to 3 years.

04

PARTNER CAN WORK

Your partner may join you on an Open Work Visa.

05

FREE SCHOOLING FOR KIDS

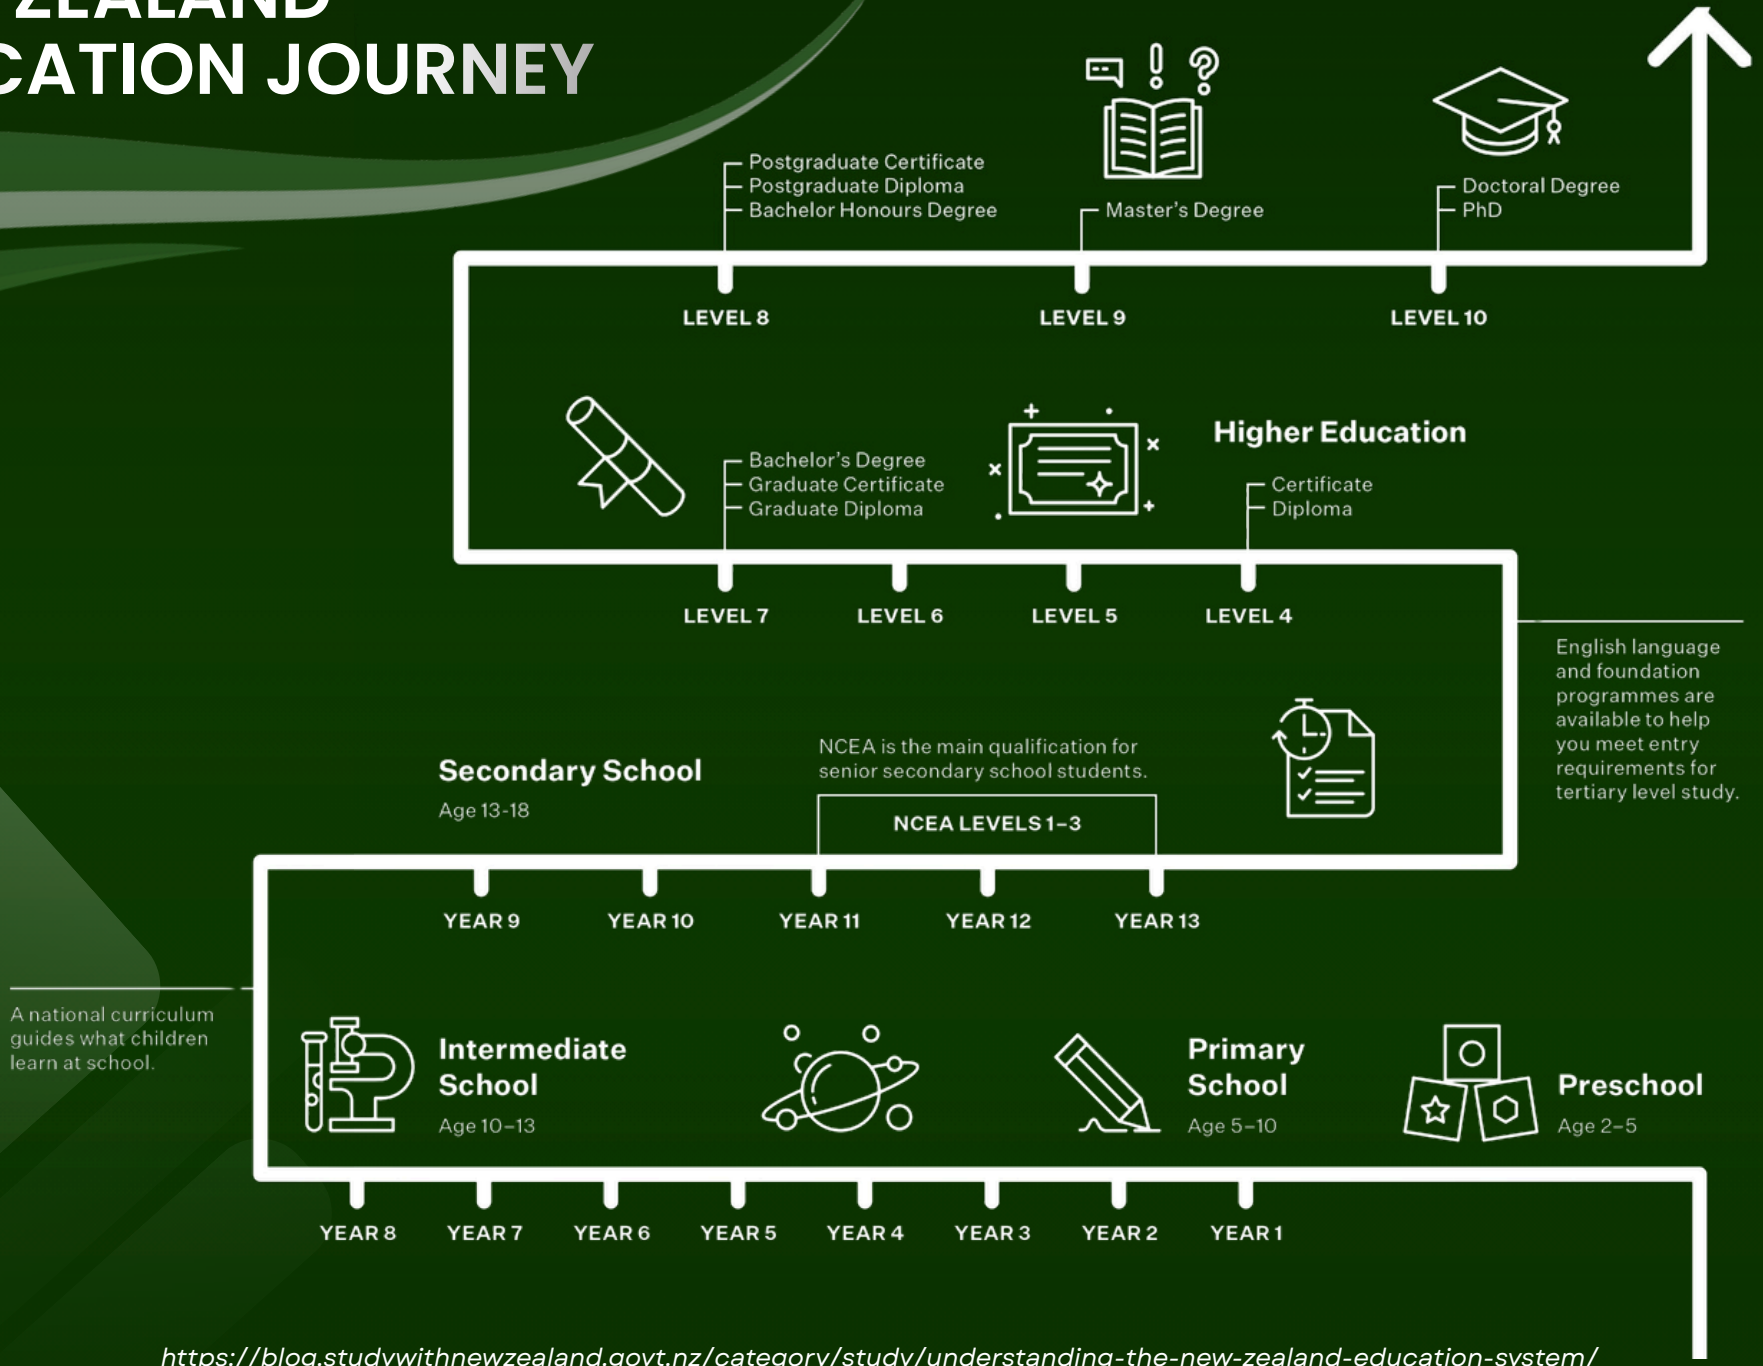
Dependents under 18 study for free.

06

GLOBALLY RECOGNIZED DEGREE

Boosts your career prospects worldwide

NEW ZEALAND EDUCATION JOURNEY



https://blog.studywithnewzealand.govt.nz/category/study/understanding-the-new-zealand-education-system/

NZ Diploma in Enrolled Nursing

This program is for those who want to work in clinical settings as an enrolled nurse and a valued member of the health team. Students will gain knowledge in nursing, social science, and the structure and function of the human body. They will learn skills in simulated learning environments which can then be applied on placements in clinical practice. A range of clinical courses in different health care settings will prepare students to practice in areas including rehabilitation, acute care and mental health. After completing this program students will be able to apply to the Nursing Council of New Zealand to sit an exam to be registered as an Enrolled Nurse; this means they will be able to practice under the direction of a Registered Nurse.

5	18	180	3	25
Level	Months (Duration)	Credits	Points for Residency	Hours per week (Work Rights)

Entry Requirements

- Completion of equivalent secondary education to New Zealand's NCEA Level 2. Some institutions may require credits in English and Mathematics.

English Requirements

IELTS 6.5
all bands or equivalent

Intakes

February, July

Employment Outcomes

- Graduates of New Zealand's Enrolled Nursing diploma generally find employment in hospitals, aged care, mental health, and community settings. Starting salaries average NZD $61,000–$64,000, rising with experience. While demand exists, some face competition for positions. Expanded scope of practice and flexible work settings improve long-term opportunities and career growth.

Post Study

- Graduates who complete an Enrolled Nursing qualification (typically a Level 5 Diploma) in New Zealand can apply for a Post Study Work Visa (PSWV). This visa allows them to work for any employer in the health sector, often for up to 1-2 years, provided they have completed a 60-week, full-time course and hold a valid registration with the Nursing Council of New Zealand

School:

- Southern Institute of Tech
- Wintec

NZ Diploma
in Early Childhood Education

The New Zealand Diploma in Early Childhood Education and Care (Level 5) equips students with the practical skills and knowledge needed to work with young children in early learning environments. The programme focuses on child development, professional practice, and creating safe, inclusive, and nurturing learning spaces.

Employment Outcomes

- Early Childhood Educator
- Preschool / Kindergarten Teacher Aide
- Childcare Centre Assistant
- Nanny / Home-Based Educator
- Early Learning Support Worker

School:

- New Zealand Tertiary College

NZ Diploma in Hospitality Management

The New Zealand Diploma in Hospitality Management is the ideal entry point into the Hotel and Hospitality Industry. This programme equips students with essential operational, business, and management skills, preparing them for real-world hotel environments.

5	12	120	25
Level	Months (Duration)	Credits	Hours per week (Work Rights)

Entry Requirements

- All applicants are interviewed. Students under 17.5 will be assessed on a case by case basis.
- Students are required to have NCEA Level 2 or equivalent international qualifications.
- International students will require an IELTS of 5.5 with no band score below 5.0, or equivalent English Language score.

Employment Outcomes

- Hands-On Hotel Training
- Learn in a fully operational hotel campus
- Gain practical experience in Food & Beverage operations
- Restaurants and kitchens are your classrooms
- 6-Month Paid Industry Placement
- Guaranteed paid hotel job
- Get paid while you study
- Graduate with real industry experience and connections
- Business & Management Skills
- Travel While You Study
- Work and travel at the same time through your Paid Industry Placement

English Requirements

IELTS of 5.5
(with no band score lower than 5.5)

Intakes

January, July

School:

- Pacific International Hotel Management School

NZ Diploma in IT Technical Support

The NZ Diploma in IT Technical Support provides practical, job-ready skills for entry-level roles in the IT industry. Delivered at our Auckland city campus, the programme focuses on core areas such as computer networks, operating systems, programming, web technologies, and IT support services. Students develop hands-on experience through practical projects and applied learning, building the technical knowledge and problem-solving skills required to support users, systems, and networks in a professional IT environment.

5	18	180	3	25
Level	Months (Duration)	Credits	Points for Residency	Hours per week (Work Rights)

Entry Requirements

- Open entry with interview
- A qualification in Information Technology or Computing at Level 3/4 or above, or
- NCEA Level 2/3, or An overseas high school qualification

Internationally recognised certifications:

- CompTIA A+
- Cisco CCNA
- ITIL Foundation

English Requirements

IELTS Academic score of 5.5
with no band less than 5.0

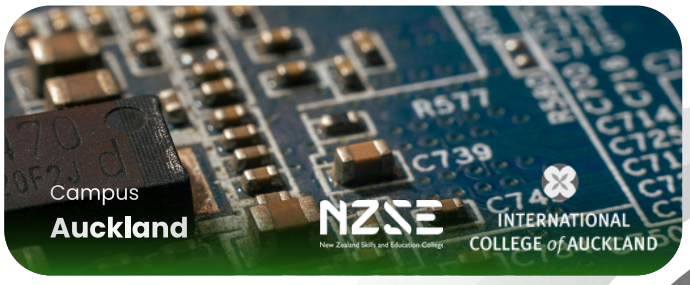
What You Will Study

- Computer Network Principles
- Programming
- Technology in Society
- Operating Systems
- Web Design and Database Applications
- Security Fundamentals
- IT Support and Service Management
- Industry Certifications

Career Opportunities

- Graduates may pursue roles such as:
- Computer Technician
- Network Engineer
- Help Desk Technical Support
- Network Systems Administrator (Entry Level)
- Application Support Analyst



NZ Diploma in Engineering (Electrical Engineering)

The New Zealand Diploma in Engineering (Electrical) is designed to equip students with the essential theoretical knowledge and hands-on practical skills required to excel in the dynamic field of electrical engineering, especially in power systems. This nationally developed and internationally recognized qualification focuses on real-world industry needs and is aligned with Engineering New Zealand standards. Students will gain solid grounding in electrical principles, machinery, and sustainable energy, and will also complete an industry-focused capstone project. Real-world labs, small class sizes, and experienced tutors make this program ideal for future electrical technicians and engineers.

6	24	240	2	25
Level	Months (Duration)	Credits	Years (Post Study)	Hours per week (Work Rights)

Entry Requirements

- Equivalent secondary school qualifications (e.g., Year 12 completion with Maths and Physics)

English Requirements

IELTS 6.0 overall
(with no band score lower than 5.5)

Employment Outcomes

A Level 6 Diploma in Electrical Engineering equips you for a wide range of technician and support engineering roles—spanning production, automation, design, maintenance, systems, and project management.

Graduates of the program will be capable of operating at a technician level scope of practice as outlined by the Dublin Accord (International Engineering Alliance, 2002)

- Electrical Engineer
- Telecommunications Engineer
- Power Systems Engineer
- Electrical Services Engineer
- Electronics Engineer
- Control Systems Engineer
- Automation and Robotics Engineer
- Computer Engineer

Intakes

Bachelor of Nursing

The Bachelor of Nursing (Level 7) is the three-year degree qualification for those intending to become a registered nurse. After completing this degree, students sit the Nursing Council of New Zealand exam to complete their registration. There is a high demand for nurses both the Waikato, throughout New Zealand, and globally, and there are strong job outcomes for nursing graduates.

7	3	180	3	5	25
Level	Years (Duration)	Credits	Years (Post Study)	Points for Residency	Hours per week (Work Rights)

Entry Requirements

- Graduates who have achieved a recognized bachelor's degree in a health-related industry with a minimum B grade (65%) in the third year of their qualifying degree will be considered for this program.

Employment Outcomes

- Bachelor of Nursing graduates in New Zealand enjoy strong employment outcomes. They are highly sought after in hospitals, aged care, community health, and mental health services. With continuing nursing shortages, many secure jobs soon after graduation, often with competitive salaries, career growth opportunities, and pathways to specialization or leadership roles

★★★★★

Angelica Penillos-Jolo

The review was thorough and well-structured. Frank clearly explained the key concepts and strategies, and he took time to address my specific questions and areas for improvement. His guidance was clear, practical, and easy to follow.

★★★★★

Noreen Hamoy

My PTE prep has been such a great experience because I felt so comfortable practicing 1-on-1. I really prefer the privacy of a smaller setting, as it helps me express my answers more freely. I'm especially grateful for my tutor's patience and encouragement, which made the entire journey much more enjoyable.

Prepare with Confidence, Succeed with Ease

Graduate Diploma of Teaching (Primary)

Gain real-life experience, professional knowledge, and bicultural skills to work with tamariki from years zero to ten (aged 5–15). This programme will explore what it means to be a reflective, ethical, culturally responsive, and child-centred teacher in Aotearoa New Zealand. Through the graduate diploma you will build your understanding of the New Zealand curriculum, gain insights into children's learning and development, and develop your knowledge of high-quality teaching practices.. Furthermore, you will gain the skills to embrace te reo me ōna tikanga Māori, Pacific culture, and the cultural identities of all tamariki you teach.

Master of Management by Thesis

The Master of Management by Thesis builds on prior postgraduate studies at Level 8 in business or related fields. It is also suitable for those with a Level 8 qualification in any field, provided they have at least 3 years of relevant managerial and practical experience. This program emphasizes mastery of theoretical concepts in management, making it ideal for learners who intend to pursue doctoral studies or an academic career. Successful graduates will be well-prepared to enter doctorate programs in New Zealand and internationally. Students will learn to identify problems or challenges within a specialized field — whether in management, business, commerce, business information, or enterprise innovation — and develop a research project that addresses gaps in the existing literature.

Master of Business Intelligence

The Master of Business Intelligence (Level 9) empowers learners to transform data into strategic actions that provide organisations with a competitive edge. Through advanced study in diagnostic analytics, you'll learn to evaluate complex business environments, harness emerging technologies, and make high-level decisions with confidence. This programme also strengthens your expertise in ethical leadership, cultural responsiveness, governance, and sustainable business practice — essential skills for guiding modern organisations with professionalism and integrity. You'll bring all of this together in an innovative capstone project, where you apply advanced analytical frameworks and problem-solving techniques to tackle real world challenges and deliver practical solutions.

Master of Data Analytics

The Master of Data Analytics (Level 9) is designed for professionals ready to lead the forefront of data driven innovation in New Zealand. It equips you with the skills to turn complex datasets into strategic intelligence that drives organizational growth and shapes decision-making at the highest level. Through a blend of rigorous academic theory and hands-on application, you'll explore AI, predictive analytics, and enterprise business intelligence, tackling real-world challenges that mirror the demands of industry. Learners gain experience designing scalable AI solutions, navigating ethical and regulatory frameworks, and applying advanced strategies in resource allocation, change management, and performance evaluation. Graduates will be equipped to take on senior management roles or pursue further study at a doctoral level, positioning themselves as leaders in the rapidly evolving field of data analytics.

Master of
Software Engineering

The Master of Software Engineering is an intensive, 1-year program designed for ambitious professionals seeking to become leaders in the rapidly evolving world of technology. Delivered over three trimesters on weekends, this program combines multi-disciplinary expertise with hands-on, project-based learning, allowing you to gain in-demand skills without interrupting your career.

Through the program, you will master emerging fields such as quantum computing, cloud security, data analytics, and blockchain, equipping you to tackle complex challenges and drive innovation. Every course is carefully designed to provide real-world experience, so you graduate with a robust portfolio of projects that demonstrate your ability to develop, deploy, and secure cutting-edge software solutions.
Graduates leave ready to take on high-impact roles in software engineering, cloud architecture, data analytics, blockchain development, cybersecurity, and beyond, making them highly sought-after in a competitive global job market.

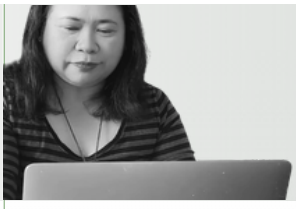
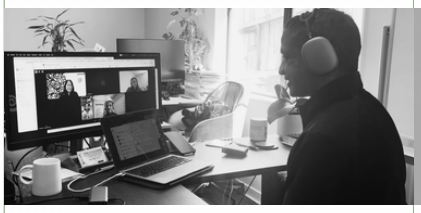
YOU'RE

JOURNEY EXPERIENCE



Pre-Screening

Start with a free 5–10 minute eligibility interview to find out if you qualify for a student visa — no commitment, just clear answers.



01

Evaluation & Assessment

Our expert team thoroughly evaluates your academic profile using your: *Passport, Curriculum Vitae (CV), Diploma, Transcript of Records*. This ensures we build a strong, realistic application from day one.

02

Goal Setting

Your goals matter. We take the time to understand your study plans and long-term career objectives, then recommend the most suitable program to maximize your chances of success.

03

School Enrollment

We handle the hard part — from school selection to securing your official offer of admission, making the process smooth and stress-free.

04

Visa Process

Our experienced consultants prepare and lodge your student visa application with precision, minimizing delays and increasing approval confidence.

05

Visa Outcome

We track your application closely and keep you informed every step of the way until your visa decision is released.

06

Settlement Support

Your journey doesn't end with approval. We provide pre-departure guidance, arrival assistance, and settlement support so you can start your studies with confidence.
